EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Grandinetti on December 7, 2005.

The application has been amended as follows:

Claim 1 has been amended to read as follows:

1. A dispensing device comprising a base, a cover and a valve, in which the cover is releasably attached to the base by means of first hinge means, movement of the entire cover defined by first hinge means acting to operate the valve, and in which the cover is also attached to the base by second hinge means, the movement of the cover defined by said second hinge means exposing the base for loading or unloading a container of material to be dispensed, said movement defined by the second hinge means being prevented unless the cover is detached from the first hinge means.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: in the applicant's device the entire single piece cover moves to actuate the valve whereas in the device of Brandenburg et al. only the lower part 18 is disclosed to move in order to actuate the valve.

Art Unit: 3754

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
